

Ride the wave of Re-form

REFORMABLE, REMOVABLE BRACING SYSTEM

Open it, Close it

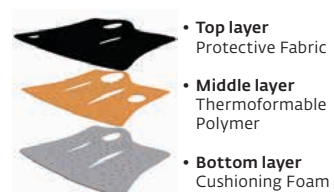

Exos is the **leading** bracing system offering you and your patients a removable, adjustable, reformable and waterproof solution for the treatment of fractures and other injuries requiring stabilization.

REMOVABLE

Although the Exos brace is custom fit to your patient, it can be easily removed, allowing:

- Examination of the fracture site
- Examination of a wound or an incision
- Assessment of muscle atrophy
- The ability to initiate rehabilitation therapy earlier in the healing process
- Skin and brace cleaning
- Sawless removal

Comfortable, lightweight material made from

Exclusive Boa® dynamic closure system

Antimicrobial treated

Washable and waterproof

To ensure compliance, the Boa Locking Ring prevents unprescribed loosening or removal.

1. Simply heat brace in our oven for 3-5 minutes.

2. Open and slide onto patient's limb.

3. Gently mold and adjust for a comfortable fit.

4. Use the reel and lace to tighten as needed.

REFORMABLE

The Exos brace is completely reformable, allowing:

- Modification to accommodate anatomical changes as healing progresses
- Serial changes of position
- One brace throughout duration of treatment
- Less material waste

Warm it, Fit it

ADJUSTABLE

Exos uses the exclusive Boa reel and lace dynamic closure system, allowing:

- Expansion to allow for initial swelling and to reduce the risk of Compartment Syndrome
- Tension modification for custom fit despite atrophy or changes in soft tissue
- Improved patient comfort and fit

It Takes to Water

The Exos brace is waterproof,* allowing:

- Patients to continue their regular daily activities such as showering
- Children to remain active
- Athletes to continue water activities
- Use of blow dryer to quickly dry brace and skin

It's Easy to Clean

The Exos brace is designed for improved hygiene, allowing:

- Patients to hand wash and dry as needed
- Antimicrobial treated material to reduce odor
- Brace to be removed in order to clean skin or injury site

X-ray without brace

X-ray with brace

It's See Through

The Exos brace is **radiolucent**, allowing:

- X-rays to be taken without removal of brace
- Clinical assessment of fracture healing without the need for re-casting

*Limitations and precautions apply. See product instructions for use.
