# XcelTrax<sup>®</sup>

Simple, reliable, and practical, The XcelTrax<sup>®</sup> Walking Boot has long been the choice of clinicians who want a walking boot that combines simplicity and reliability in a practical boot. It offers all the support and features you expect with a sleek, stylish design, giving patients a walking boot with an intuitive ease of fit.

Designed for support and comfort following trauma or post-operative procedure, XcelTrax<sup>®</sup> has a lightweight, sturdy design with anatomically shaped uprights that help to facilitate a better fit. It combines integrated strapping to aid in full circumferential support and compression with cushioned inner/outer soles to help absorb shock upon heel strike. The soft nylon/foam liner in the pneumatic version has an integrated pump design making the pneumatic liner simple to inflate and adjust.

Strapping and pump/deflate button design allow for intuitive fitting

Anatomically shaped uprights facilitate optimal fit

Rocker bottom is designed to promote proper gait
